Applied Energy **36** (1990) 333–335

CONTENTS OF VOLUME 36

Numbers 1 & 2

Special Issue: Energy Saving

Guest Editorial iii

Introductory Remarks 1
the late EDWIN F. SHELLEY (USA)

PASSYS: A CEC-Promoted Action Aimed at Achieving Energy Savings in Buildings: The Italian Contribution 3
M. ANTINUCCI, A. BIONDO & S. SCIUTO (Italy)

Energy-Efficient Building Design: Innovative HVAC, Lighting, Energy-Management Control, and Fenestration 11
FRED S. DUBIN (USA)

Energy-Efficiency Programs for Existing Buildings 21
FRANK M. STEWART (USA)

Evolution of the Transport System and its Effect on Energy Consumption . 29
GIUSEPPE SCIARRONE (Italy)

Evolution of the Energy Intensity Concept in the Domestic Chemical Industry: The Past and Future; Investments and Support 35
ROBERTO MAFFIOLI (Italy)

Low-Temperature Heat-Recovery in an Oil Refinery 43
RAOUL MILANI (Italy)

Present Situation and Trend of Energy Savings in Italian Steel-making . . 47
S. POGGI (Italy)

Prospects for Energy Saving in the Italian Iron and Steel Industry using Electric Furnaces 51
G. SCOTTI (Italy)

Energy Recovery in a Regeneration Plant for H_2SO_4 Sludges and Spent H_2SO_4 Acid 55
C. ZOPPI, G. SOZIO & A. NUNZI (Italy)

Applied Energy **36** (1990)—© 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

The Role of Insulation in Industry 61
PAOLO BERSANI (Italy)

Promoting the Efficient Use of Energy: ENEL's Experience and Programmes . 65
GIANPIETRO PACATI (Italy)

ENEA's Role in the Efficient Use of Energy 71
D. PITIMADA (Italy)

The Need to Clarify Energy-Saving Ideas 75
UGO SELLERIO (Italy)

The Cogeneration Revolution 79
ROBERT N. AMUNDSEN (USA)

Urban Cogeneration Combined with District Heating: Is it Still a Valid Solution for Italy? 85
LUIGI FRANCO BOTTIO (Italy)

Contribution of Gas Turbines to Energy Savings with High-Efficiency Systems 89
MARIO LOCATELLI (Italy)

Heat Service: An Energy-Saving Opportunity 93
MAURILIO LEBOFFE (Italy)

The Role of the Energy Manager 97
GUGLIELMO FERRARI (Italy)

Financing Energy-Saving Projects: Financial Sources and Investment Evaluations 101
RENZO ZOPPELLARI (Italy)

A Fully-fledged Energy Source which cannot be Overlooked: 'Energy Saving' . 105
STEFANO LANZUOLO (Italy)

Thermoelectricity from the Sun and Gas in the Mediterranean Area . . . 115
CARLO BELLECCI, GIORGIO PICCINETTI &
FERDINANDO SURACI (Italy)

Applications in Third-World Countries 125
PHILLIP LEBEL (USA)

Energy for Development: Energy Conservation in Developing Countries . . 143
ANTONIO NAVIGLIO (Italy)

Energy Consumption in Italian Agriculture 159
NICOLA STOLFI & LUCIO TRIOLO (Italy)

Number 3

Electronically Commutated Direct-current Motor for Driving Tube-axial Fans: A Cost-effective Design 167
L. NEWBOROUGH, N. NEWBOROUGH & S. D. PROBERT (UK)

Rankine Cycles for Steam Power-plants 191
O. BADR, S. D. PROBERT & P. O'CALLAGHAN (UK)

Parametric Study of Heat Transfer to an Ice Cylinder Melting in Air . . 233
WILLIAM S. JANNA & GERALD S. JAKUBOWSKI (USA)

Letter to the Editor 251

Number 4

Improvement of the Efficiency of a Bare Solar Collector by Means of Turbulence Promoters 253
A. CORTÉS & R. PIACENTINI (Argentina)

Rankine-Cycle Systems for Harnessing Power from Low-Grade Energy Sources 263
O. BADR, P. W. O'CALLAGHAN & S. D. PROBERT (UK)

Impact of Residential Photovoltaic Power Systems on the Electric Utility in Cairo, Egypt 293
M. A. HAMDY (Egypt)

Vapour-compression Refrigeration Systems 303
O. BADR, P. W. O'CALLAGHAN & S. D. PROBERT (UK)
